National Garden Day
A PETITION FOR THE HOUSE OF COMMONS

- **Whereas** Canada has a long-standing garden heritage;
- **Whereas** National Garden Day would recognize the many national and international innovations of the Canadian horticultural industry;
- **Whereas** National Garden Day would promote environmental stewardship and educate Canadians on the importance of public and private gardens, and the health and well-being benefits of gardens; and
- **Whereas** National Garden Day would provide an opportunity for Canadians to share their knowledge and passion for gardening and the outdoors;

Therefore we, the undersigned citizens of Canada, call upon the House of Commons to:

- Designate the Friday preceding Father's Day of each year as National Garden Day.
